CVInsight Match

65%

You're a **STRONG** candidate

Score: 65/100

Referral Will Help A Lot

You're a solid match but a referral from someone inside the company could significantly boost your chances. Reach out on LinkedIn before applying.

HOW TO IMPROVE YOUR SCORE

- Add 'Next.js' to your skills section; it is a core requirement for the frontend stack.
- Update your 'CVInsight' project description to explicitly mention the use of vector databases (e.g., Pinecone, Milvus) or LLM APIs if applicable.
- Highlight any experience with RAG or AI agent workflows in your project bullet points to align with their 'AI-native' focus.
- Include a section on 'AI/ML' and list any exposure to model inference or prompt engineering to bridge the gap in LLM Ops requirements.

✓ TypeScript
✓ React.js
✓ Node.js
✓ Fullstack development
✓ Git
✓ Database experience
